### **Enhanced Ni-Cd Battery Applications Pages on IBLUK Web Site**

Industrial Batteries (UK) Limited – IBLUK – has extended their web site to give additional information on the applications where Industrial Batteries are used.

The applications pages have been enhanced to cover the main areas of use; these are a widely diverse range of applications which include:

- engine starting
- switchgear and switching
- uninterruptible power supplies (UPS)
- process control
- data and information security systems
- emergency lighting
- security and fire alarms
- signalling (road, rail and buildings)
- renewable energy applications

In practice, nickel-cadmium batteries can be used in any industrial application where a battery system is required.

In addition to supplying the battery, IBLUK are able to specify battery stands and accessories to suit the customer's requirements, to provide a complete battery package.

IBLUK are a UK company specialising in premium quality industrial nickel-cadmium batteries and support. In addition to assisting the customer in his choice of battery and battery stand, it can also offer an extensive selection of approved accessories, a technical consultancy service, user training and a battery replacement and recycling service
